

The one last breath (part 2)

2 months ago a group of kids called zoro bonnie and sanji made history by winning tickets to explore mars with a group of scientists. They went on a mission called Apollo 21 the kids were really frightened sanji nearly pooped his pants when he knew he won. Bonnie knew a lot about space so he was very chill about it and zoro was the complete opposite. When they approached the rocket ship it looked terrifying with its height when the instructor gave us instructions if something like the window or something else was broken as well as there are boxes in the back area that had a spare controls if one of them breaks. An hour before the mission began the second instructor told us that it would take 10 days and 4 hours and 34 minutes to get to mars we were stunned that it took that long to get to the closest planet.

They got their astronaut suits on and then they all took one last look at the earth and then they boarded the ship they were all really nervous because they have never been in space before they've only seen it in pictures or if you look up at the sky. When the countdown begun the rocket ship began to shake because it was going very fast a few minutes later we started to leave the earth's atmosphere we started eating the food because there is nothing to do in space. We ate (dried bananas and a lot of dried fruit) when bonnie looked out of the circular window he saw the moon And also saw the sun that looks like a bright yellow ball lightyears away an hour later sanji glanced through the window at a planet that looks like blue milk but in a circular

ball after a while we all started to try to sleep . It was pretty hard because we were in space but we still managed but Zoro kept up till 12.00am.

Soon they started to go to sleep to save energy for tomorrow but Bonnie was thinking the opposite of Sanji and Zoro that was already asleep but Sanji couldn't go to sleep because of Bonnie soon they all went to sleep after 1 hour and 30 minutes after what felt like 10 hours of sleep I got woke up by something Zoro thought it was Bonnie trying to wake everyone up but he was asleep when Zoro looked out of the window he saw a little black blazing fire rock coming to hit the circular window when it hit Zoro jumped back and “shouted EVERYONE WAKE UP!!!!” We have a problem. They all woke up in a hurry. They both said what happened when an asteroid hit the window of the rocket Bonnie that knows everything about space said that if we dont land on mars now we will suffocate every second counts now the layers of oxygen are dropping they have got to think fast.

They were all really frightened they glared at each other (gulp from Bonnie). They all ran around the rocket ship looking for something to fix the cracked window Bonnie remembered what the instructor said he said that if the window breaks there is a box in the back of the ship. When Bonnie remembered he ran to the back of the rocket when he got there he saw a box that on the tape it said fragile he shouted everyone come over here Sanji came but zoro obviously got lost in the rocket sanji with no patience ripped the box open and saw a paper that said a instruction to build a new window for stupid idiots. Bonnie said “i'm not a

stupid idiot” “Sanji said yes you are”when they tried fixing it they finally saw Zoro.They didn't know he was actually a builder that builds windows so we asked he can fix the window he said of course I will so they got zoro to fix the window they were running out of oxygen very quick Bonnie said they only have 1 minute to fix the window or they will die.Zoro fixed it really fast. When he fixed it Bonnie and Sanji both applauded. Now they could continue with the mission. 9 days later they finally reached Mars and they all shouted “yippee eeeeeee!!!!!!!!!! “
